

### **Coronavirus (COVID-19) Policy - March 18th, 2020**

Forever Young Memory Care is committed to ensuring the health and safety of our residents, team members and community. We recognize that many of our residents are part of the most at-risk population. We also recognize that they are also dependent on the 24/7 care we provide. In order to ensure we protect our residents and team members from the spread of the COVID-19 disease, we are implementing the following protocols:

1. We ask that there be no visitors at this time except our care team and medical professionals when necessary.
2. All team members and others that are permitted to enter our home are required to have their temperature taken. Anyone with a temperature will not be allowed to enter
3. Employees that have tested positive for COVID-19 or have cold or flu like symptoms associated with the disease will be off work and not in contact with any residents or members of our team.
4. We ask that any team members, medical professionals and visitors who have tested positive for COVID-19, have been in contact with anyone that has tested positive for COVID-19 or has any cold or flu like symptoms associated with the disease notify our leadership team prior to any contact with our team, residents, and facility.
5. All people who enter our home are required to thoroughly wash and sanitize their hands at the portable handwashing station located at the front door.

Safety is our first priority. This policy may be updated as new information is made available. We will make every effort to adhere to guidelines provided by the federal, state, and local health officials however it is impossible to guarantee that anyone is not transmitting the virus.

**We appreciate your support and understanding during this unprecedented time.**
